

United States v. Hunt

2009 | Cited 0 times | D. Minnesota | July 15, 2009

ORDER

The defendant has brought a second motion for early termination of probation, pursuant to 18 U.S.C § 3564(c). Defendant requests that his term of probation be terminated because he believes that he has been successful complying with the terms of his probation. The Court received correspondence from U.S. Probation Officer, David Duncan, who had contacted the defendant's supervising probation officer in California, Stephanie Woovortan, to solicit her views on the defendant's request.

The probation office recommends approval of the early termination request because the defendant has not incurred any infractions during his period of supervision. In addition, the Government does not object to the request to the motion.

Based upon defendant's request, and all the files, records and proceedings herein,

IT IS HEREBY ORDERED that defendant's second motion for early termination of probation [Docket No. 194] is GRANTED.
