Re: Tri-State Armature & Electrical Inc. v.

Timothy B. Houston, Electro Design Engineering, Inc., and Ce/eta Stripling; District Court, Eastern District of Arkansas, Jonesboro Division; No. 3:16-cv-134-DPM Dear Judge Marshall:

We have a discovery issue as a result of broad subpoenas issued yesterday by Plaintiff's counsel to 25 of our client's customers. When we received the subpoenas yesterday, we asked counsel to withhold service of the subpoenas so we could address with them our objections to the requests; however, counsel is proceeding forward and serving customers as we speak. We are unable to resolve this issue. request is simply that counsel withhold service of the subpoenas to the party customers so we can file an appropriate motion, assert our objections and let the Court rule. Will the Court please grant our request for counsel to place on hold service of the subpoenas?

counsel, Jim advised that he is out of the office this afternoon and others in his firm are attending a funeral today.

Thank you very much for the Court's time.
